

Anti-Inflamma

Excellent for pre- and
post-chemotherapy
treatment

- NATURAL COX-2 INHIBITOR
- RELIEVES PAIN
- REDUCES INFLAMMATION

Chemotherapy

is an excruciating systemic therapy; this means it affects the whole body by traveling through the bloodstream. A recent study found that COX-2 levels were directly associated with levels of a growth factor that promotes the development of new blood vessels, a process called angiogenesis. In the cells missing the COX-2 gene, vascular endothelial growth factor levels (tumor growth) were substantially lower; with an active COX-2 gene, VEGF levels dropped after treatment with COX-2 inhibitors.

New Roots Herbal has developed a natural product that selectively blocks the enzyme COX-2 (cyclooxygenase-2). Blocking this enzyme impedes the production of the chemical messengers called prostaglandins that cause the pain and swelling of arthritis inflammation.

Each vegetable capsule contains:

Boswellic Acid 70%	200 mg
Curcumin 95% extract	200 mg
Bromelain 2400 gdu	100 mg
Quercetin Dihydrate 98%	100 mg

Non-medicinal ingredients: Vegetable magnesium stearate and silicon dioxide, in a NON-GMO vegetable capsule composed of vegetable cellulose and purified water.

Contains no: Preservative, artificial flavour or colour, sugar, milk, starch, wheat, corn, soy or yeast.

Suggested use:

Take 2 capsules 3 times a day at meals. Maximum dose is 12 capsules daily for acute conditions.

Caution: Do not use while on cancer chemotherapy. Stop taking Anti-Inflamma 2 days before chemotherapy. Take Anti-Inflamma only 30 days after your last chemotherapy treatment has ended.

If you are taking blood thinning medicines, use only under your health care practitioner's guidance.

If gastrointestinal upset such as bloating or diarrhea occurs, discontinue the product and consult your health care practitioner.

Keep out of reach of children.
