

Intestinal aid

- KILLS PARASITES
- TOOTH PAIN

Cloves

are the rich, brown, dried, unopened flower buds of *Syzygium aromaticum*, an evergreen tree in the myrtle family. The name comes from the French “clou” meaning nail.

Used in China for more than two thousand years, legend has it that cloves are an aphrodisiac. Although there isn't any evidence to back this claim, we do know that oil of clove is a time-honored remedy for toothaches. Clove oil is highly antiseptic. There are many proven benefits when using cloves: it relieves tooth pain and has an antiemetic action that helps control vomiting.

This herb keeps food fresh because the main active component of cloves is eugenol, which has long been known to help kill bacteria and viruses. By killing bacteria, eugenol helps keep meat fresh and prevents stomach upset, traveler's diarrhea and wound infections.

Cloves are not limited to only preserving food, this is a powerful herb that can ease tooth pain. The eugenol in cloves makes the herb effective as an antiseptic and painkiller. Just a drop of this healing oil can ease tooth pain until you can see a dentist.

This herb is also used for combating intestinal problems such as indigestion, and laboratory studies have shown its effectiveness. It has been used in Asia for thousands of years for many ailments. There is an ingredient in cloves that fights the bacteria responsible for creating diarrhea, and has a history as a relief for such problems.

Studies show that the oil in cloves can help kill several strains of staphylococcus bacteria and one strain of pseudomonas organisms that can cause skin infections. To treat cuts, empty one capsule mixing with water to form a paste. Apply the poultice directly to the site of the cut. Cover it with a warm towel.

Each capsule contains:

Freshly-ground cloves (*Syzygium aromaticum*) 500 mg

Non-medicinal ingredients: Vegetable magnesium stearate and silicon dioxide, in a capsule of gelatin, glycerin and purified water.

Contains no: Preservative, artificial flavour or colour, sugar, milk, starch, wheat, corn, soy or yeast.

Suggested use:

Take 1 capsule daily with meals or as directed by your health care practitioner.

Keep out of reach of children.
