

# High potency probiotics

- 10 COMPLEMENTARY STRAINS
- INTESTINAL HEALTH

**Ultra-Max** from New Roots Herbal is a powerful formula which contains at least 25 billion active cells. These microorganisms prevent the development of putrefactive bacteria in intestinal diseases. F.O.S. increases the bifidobacteria population in the colon, which in turn contributes to human health in many ways.

F.O.S. is good for:

- Proliferation of bifidobacteria and reduction of detrimental bacteria;
- Reduction of toxic metabolites and detrimental enzymes;
- Prevention of pathogenic and autogenous diarrhea;
- Prevention of constipation;
- Protection of liver function;
- Reduction of blood pressure;
- Anticancer effect;
- Production of nutrients.

Probiotics reduce the damage caused by antibiotics to the intestinal flora and help maintain the bacterial balance of humans. Dairy-free, Ultra-Max from New Roots Herbal has a strength of 36 billion active cells per gram and helps prevent intestinal diseases such as *Candida* yeast infections and contributes, at various degrees, to increase the immune system. In addition, it accelerates intestinal movement, encourages regularity, and reduces lactose intolerance.

#### Ingredients:

10 friendly micro-organisms (beneficial bacteria cultures). Each gram also contains 33 mg of F.O.S. (fructo-oligosaccharides)-inulin extracted from chicory root and 33 mg of A.O.S. (arabino-oligosaccharides) extracted from *Larix occidentalis*, ultra-dry maltodextrin, magnesium stearate (vegetable source) and ascorbic acid. This is a potent, complex formulation of 10 specific strains of beneficial bacteria cultures.

Each gram contains 36,534 billion live, active, cells designed as follows per gram:

<i>L. bifidus</i> . . . . .	15.84 Billion / g
<i>L. acidophilus</i> . . . . .	11.918 Billion / g
<i>L. helveticus (8781)</i> . . . . .	1.823 Billion / g
<i>L. plantarum</i> . . . . .	1.42 Billion / g
<i>L. casei</i> . . . . .	1.42 Billion / g
<i>Bifido longum</i> . . . . .	1.055 Billion / g
<i>Bifido infantis</i> . . . . .	1.055 Billion / g
<i>Bifido breve</i> . . . . .	1.055 Billion / g
<i>S. thermophilus</i> . . . . .	853 Million / g
<i>L. bulgaricus</i> . . . . .	95 Million / g

Brownish color is from the natural brown bifido cultures.

Contains no: No preservatives, artificial colour or flavour.

#### Suggested use:

¼ tsp. in food, once daily with a meal.

Keep refrigerated.
