

# DMSO Liquid

**FAST-ACTING TOPICAL RELIEF  
FOR JOINT AND MUSCLE PAIN**

## WHAT IS DMSO?

Dimethyl sulfoxide (DMSO) is a potent topical treatment that helps temporarily reduce pain from musculoskeletal conditions like joint pain and acute injuries. It quickly penetrates the skin, offering targeted relief for sore muscles, strained ligaments, swollen joints, and even posttraumatic injuries like sprains and fractures.

## HOW DOES DMSO WORK?

DMSO is applied topically and rapidly penetrates the skin, entering the bloodstream to reach tissues where pain and inflammation occur.

## WHAT YOU CAN EXPECT

- Effects felt within minutes
- Temporary relief typically lasts a few hours
- Cleared from the body in 12–24 hours without accumulating

Available in 50 ml or 100 ml glass bottles with a convenient dropper for precise application.
